

I benefit from listening to XM Satellite Radio's music, traffic, and weather channels. XM satellite radio provides variety and quality that are not available to me during my extended commute. Several stations fade in and out, severely limiting my choices. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. XM Radio has delivered a product that I have been extremely happy with. Thank you.
